Software Engineer   LinkedIn|gupta.sanskriti05@gmail.com

SKILLS

Javascript, Reactjs, ANT design, Redux, Typescript, HTML, CSS, Vue.js **|** Java, PHP, Postgres, Mysql, RESTful APIs **|** Jest, Unit Testing, Automation, Postman

EXPERIENCE

FRONTEND DEVELOPER   **10/2021-08/2023**
TIAI Computer Vision

- Led the initiative to design and develop an attendance-tracking system specifically tailored for partner resources involved in data labeling.
- Developed and implemented 4 comprehensive dashboards to streamline ongoing operations and enhance long-term performance monitoring for the team.
- Executed performance optimizations that led to a significant 30% reduction in application response time.
- Elevated the user experience of the internal project management system by enhancing the UI and revamping existing features to enhance navigation and workflow.
- Facilitated knowledge transfer sessions, resulting in faster onboarding and increased team productivity.
- Mentored interns on software development best practices, helping them to develop their skills and knowledge.

QA ENGINEER   **10/2019-10/2021**
Playment

- Managed end-to-end quality assurance for vital operations such as login and sign-up processes, ensuring seamless functionality and user experience.
- Ensured the accuracy, efficiency, and compliance of the billing management system for labeled data.
- Conducted quality assurance on labeled data metrics within the supply system, while actively contributing to design and product initiatives for enhanced user experience.
- Enhanced quality and test coverage of API automation suite test cases for the internal management application.

EDUCATION

Rajasthan Technical University, Aug 2014 - May 2018
B.Tech. Computer Science(Percentage: **73%**)
